# AGRI STAR II

DESIGNED TO DRIVE YOU **FURTHER**

**AGRI STAR II** is a brand-new radial tractor tire by Alliance. As the latest tractor tire on the market, AGRI STAR II features a unique Stratified Layer Technology (SLT) to ensure superior traction even after prolonged wear.

\* Conditions apply.

# TWO LAYERS MANY BENEFITS

Meet Stratified Layer Technology (SLT) – a unique combination of multi-angle lugs.

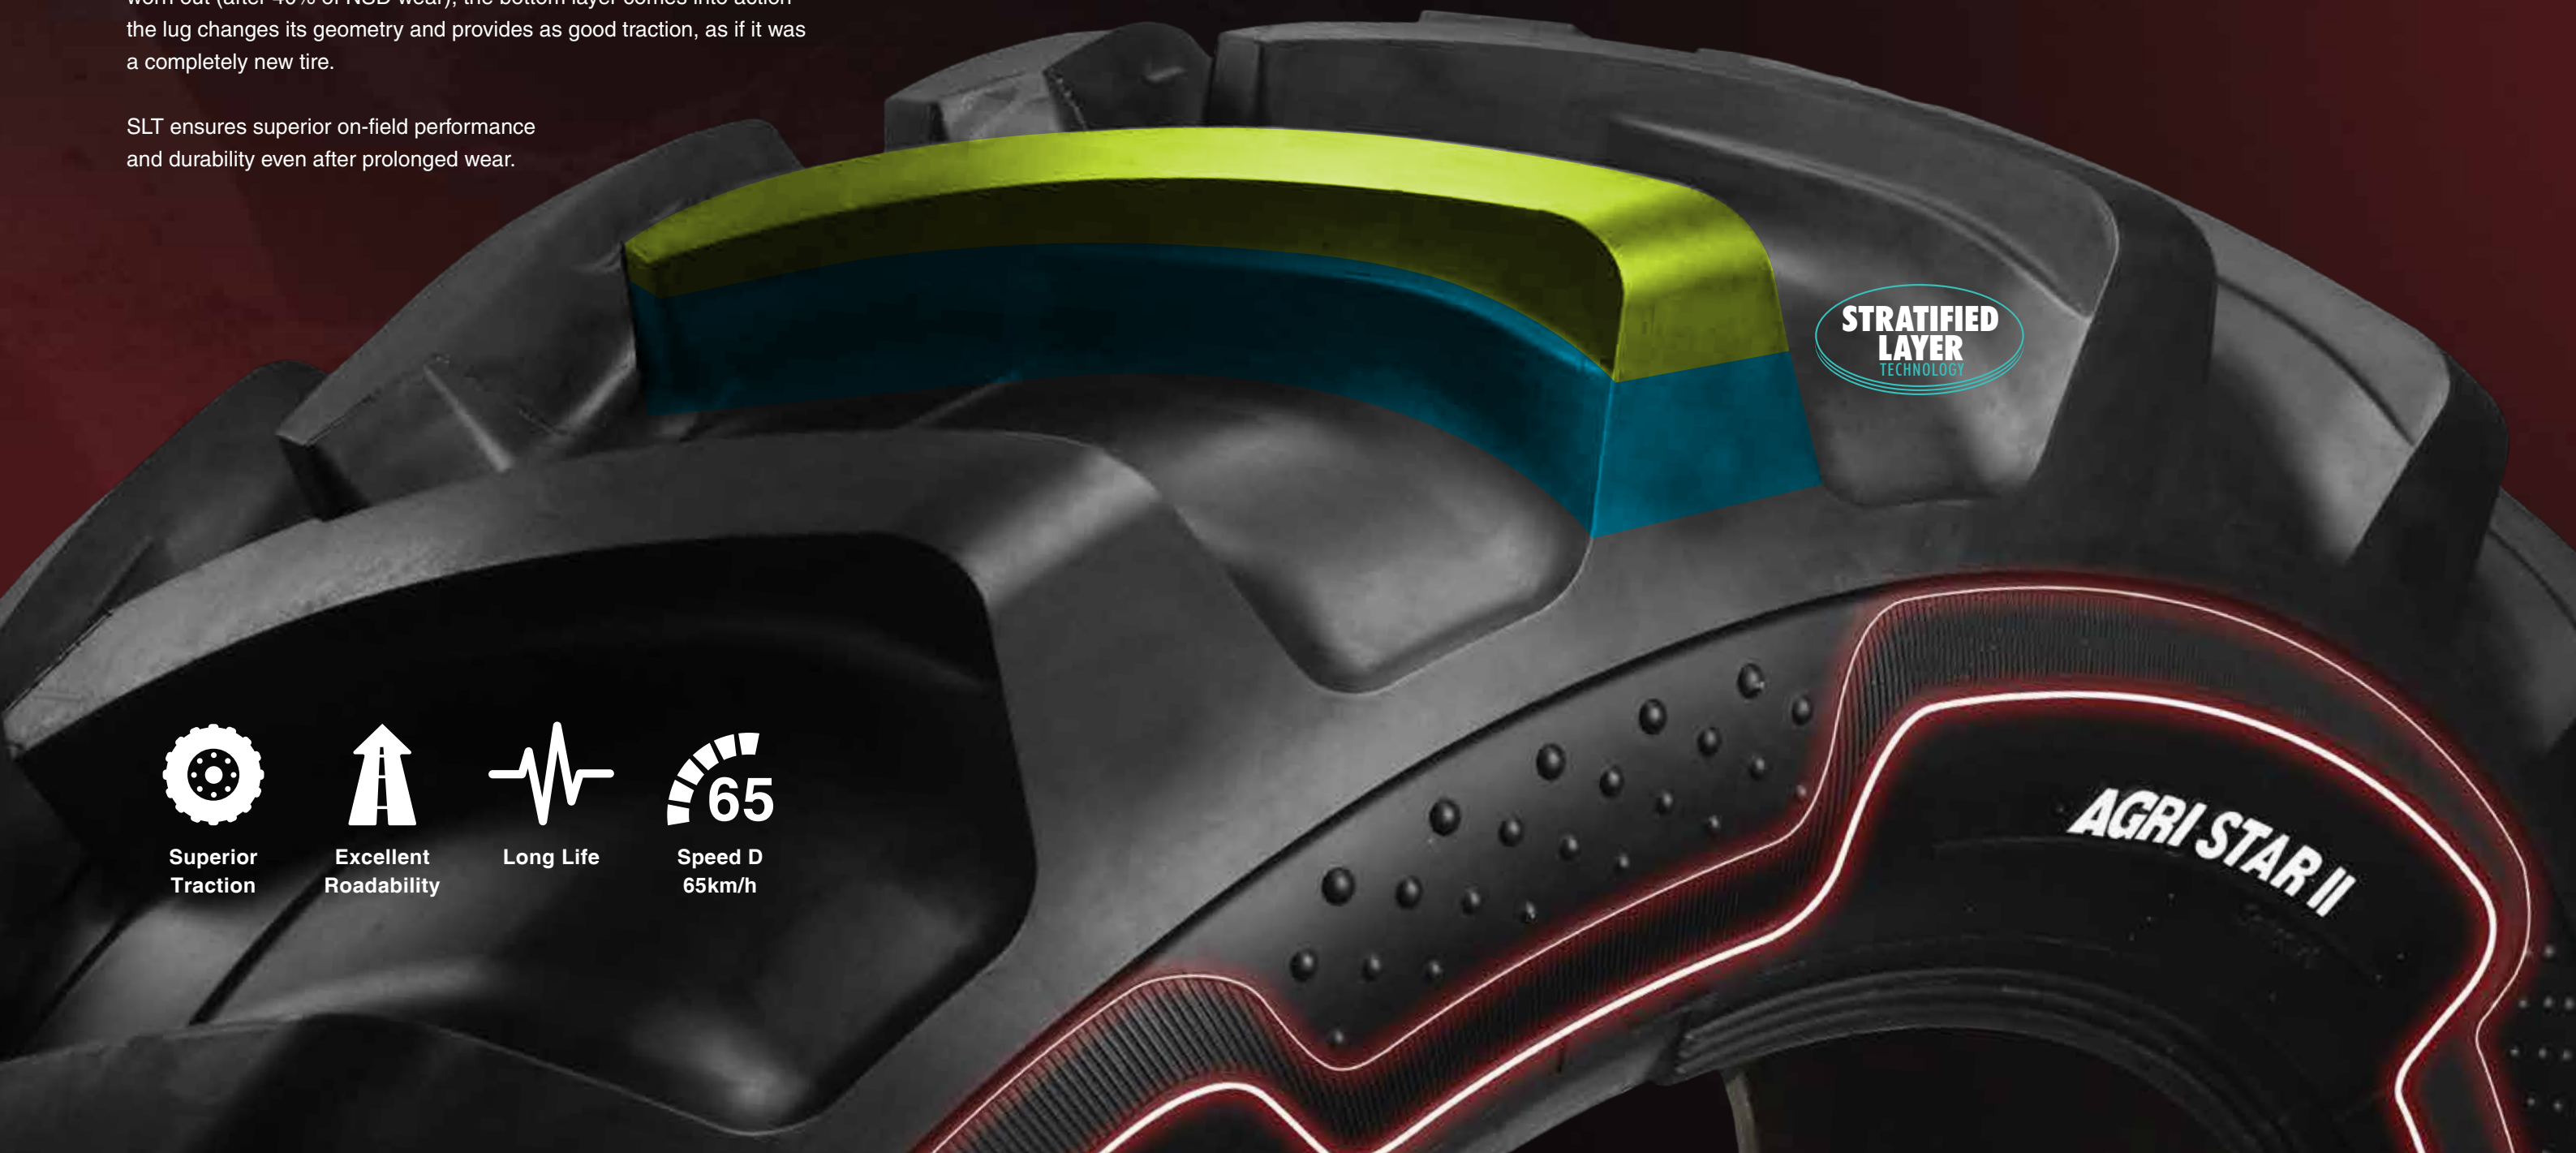

Every lug consists of 2 layers with different angles: When the top layer is worn out (after 40% of NSD wear), the bottom layer comes into action – the lug changes its geometry and provides as good traction, as if it was a completely new tire.

SLT ensures superior on-field performance and durability even after prolonged wear.

# A-CLASS PERFORMANCE

- **IMPROVED ANTI-SKIDDING** as two layers with different profiles increase the in-contact area.
- **EXCELLENT SELF-CLEANING** as dual step tie-bars prevent lug shuffling and act as mud breakers.
- **ENHANCED ROADABILITY** due to overlapping central lugs.
- **LONGER LIFE-SPAN** thanks to special stubble guard and a wear-resistant compound that protects against damage.
- **OUTSTANDING STABILITY** due to a robust, polyester casing construction.
- **CROP PROTECTION** thanks to a lug angle nose design and a smooth profile to prevent crop damage.

# THE STAR OF TRACTOR TIRES

Agricultural tires get their most advanced upgrade. AGRI STAR II is designed to perform exceptionally well in the field and please the eye as well.

Its elegant sidewall, inspired by water and earth, complements the modern tractors connection with the land, whereas its innovative lug with Stratified Layer Technology raises the bar of on-field performance.
