TIRE INNER TUBE

Welcome to **NEXEN**

Thinking, Preparing and Creating for the future.

- 1968. 09 Established Heung Ah Tire Ind. Co. in Busan
- 1982. 03 Started Business with Continental, Germany
- 1984. 03 Started Business with Firestone, France
- 1984. 09 Started Business with the Goodyear Organization
- 1988. 01 Started Business with Pirelli, Italy
- 1989. 11 Awarded a prize for exporting over US\$ 50,000,000 on 26th Export Day
- 1994. 02 Established Nexen Tech Corporation
- 1994. 05 Acquired certificate of ISO 9001 for tube & envelope, ISO 9002 for golf balls
- 1995. 06 Established Qingdao Heungah Corporation for tire flap in China

- 1999. 06 Took over Woosung Tire and Changed company name to NEXEN TIRE Corporation
- 2000. 03 Established Nexen engineering
- 2001. 12 Management takeover of Korea New Network (KNN)
- 2002. 08 Changed the company name from Heungah to NEXEN Corporation
- 2003. 09 Established ERP SYSTEM
- 2003. 11 Established Qingdao NEXEN tire inner tube plant in China
- 2006. 09 Commenced manufacturing Golf Ball in Qingdao NEXEN Corporation
- 2010. 06 Expanded the South American Market through Pirelli
- 2013. 05 Started Business with Bridgestone, U.S.A
- 2016. 07 TUBE & SOLID, Overseas sales division unified with NEXEN TIRE

NEXEN, the Global Supplier!

Over past 40years, NEXEN's continous efforts for innovation and reliability has made it a world class manufacturer of intergrated rubber products. Worldwide customers in 140 countries have placed their trust in NEXEN.

GIMHAE PLANT

Products	Capacity(year)	Remarks
Tire Inner Tubes	27,000,000PCS	Passerger Car Tire to Giant Tire

LIMITED WARRANTY

All products sold by NEXEN CORPORATION, hereinafter known as the MANUFACTURER, shall be delivered free from defects in workmanship and material. The MANUFACTURER has the right to change its product specifications at any time at its own option.

The MANUFACTURER further warrants that all product(s) sold by it, meet or exceed the specifications and regulations regarding technical performance and industrial safety as in force in the country of origin at the time of order acceptance.

The MANUFACTURER's Limited Warranty does not apply where the product(s) sold by the MANUFACTURER are not properly installed, used or serviced.

In the event of a claim by the original buyer or first user of the product(s) for alleged breach of the above Limited Warranty, the MANUFACTURER will, at its option, repair or replace the product(s) sold under the following conditions.

The MANUFACTURER must receive written notice of the claim, stating full details and particulars(usage, application, installation, date and conditions of use at time of failure, date and number of invoice covering the products/products under claim etc.), within 90(ninety) calendar days from date of first application or usage, or 180(one hundred eighty) calendar days from date of the MANUFACTURER's covering invoice, whichever period is the longest;

The product(s) will be held available for inspection by the MANUFACTURER or its Representative for a period not exceeding 90(ninety) calendar days from the date of the first claim. If not inspected by the MANUFACTURER or its authorized Representative within that period, the claim shall be deemed as accepted and will be settled as per the terms of this Limited Warranty. The user may dispose of the product(s) as he sees fit.

The MANUFACTURER shall be limited to replace the product(s) under claim, but not inspected on an ex-factory value basis ;

Upon inspection by the MANUFACTURER of product(s) under claim, a decision will be made regarding settlement of the claim, on the return of the product(s) to the MANUFACTURER's plant for inspection and repair resp. replacement. Return of the product(s) to the MANUFACTURER's plant shall be at user's expense.

Replacement by new product(s) or repair the damaged product(s) shall be at the expense of the MANUFACTURER, on a CIF port of Entry in country of destination basis.

The MANUFACTURER makes no other warranties, expressed or implied, with respect to the product(s) it sells. The MANUFACTURER's liability under this Limited Warranty is limited exclusively to the actions and or values outlined above.

Under no conditions is the MANUFACTURER liable for any damages to person(s) or property, as the user will be responsible to have adequate liability insurance to cover such events.

No person, agent, representative or officer of the MANUFACTURER's corporation is empowered to change, adapt or modify this Limited Warranty.

MOUNTING INSTRUCTIONS

Any tube, no matter how well manufactured, may fail in use as a result of impact damage, improper inflation or other conditions resulting from use. Tube failures may create risk of property damage or personal injury. In order to avoid the risk of tube failure, we strongly recommend the followings.

PRECAUTION FOR MOUNTING TIRE WITH TUBE

Recommend mounting process	Warning	Image
Always select proper tube sizes regardless of new tires or used tires.	Do not assemble tires with oversized or undersized tubes. Folding & stretching may cause problems.	
Always clean the tube and tire before mounting process and remove dirt, debris, etc.	Do not mount the tubes with tires in bad condition like with dirt, debris and etc. Also, old valve cores may cause flat tires.	
Always check the type of valve installed to the tube and match if it is centered or off-centered properly installed on the wheels.	Do not fold or twist the valves of tubes on the wheel holes. It may cause tube tearing or valve cracking.	
Always use liquid lubricant between the wheel and the tire in order to install the tubes between the wheel and tire smoothly, when pressurized.	Do not use hard particle lubricant such as talc which pinches tubes and causes pin holes, wear spots. Also, do not use oil or grease to lubricate.	
Always balance on wheels after switching tubes for comfort riding and safe.	Do not drive a car without weight balancing. It caused vibration and heat generation during driving.

MOUNTING INSTRUCTION

HOW TO MOUNT TUBES TO TIRES AND WHEELS

01

Prepare the right tube with tire and wheel.

02

Lay the wheel to the mounting machine.

03

Before mounting the tire with wheel, apply the lubricant on tire bead and wheel.

04

Start mounting the tire gently to the bottom side of the wheel.

05

Smoothly pull the valve by hand through the rim hole.

06

Put in the rest of the bead over the flange.

07

Seat the valve correctly, pulling it out by hand to be centered.

08

Inflate the tube until both beads are properly fitted.

09

Check the tire gauge as recommended.
