

# COMPANY PROFILE

# **TYRE**ZIM

## ABOUT US

TyreZim is a proudly Zimbabwean business that specialises in the supply, fitment, and servicing of a wide range of world-class tyre brands.

Founded in 2012, we pride ourselves on supplying the right product at the right price. We select brands that deliver the best value and the lowest cost of ownership to our customers. As a leader in the industry, we aim to provide expert advice and quality products.

## MISSION

We consistently supply the right product at the right price by efficiently stocking brands that provide our clients with the best value and lowest total cost of ownership. We serve as a passionate, motivated and dynamic team.

## OUR VISION

To be the Leading Tyre Company in Zimbabwe.

## OUR PRODUCTS

We are extremely proud to be Zimbabwe's exclusive distributors of Alliance, Triangle, Nexen, Zowin and Terraking products. We are driven by a desire to build trust with our clients and create real value.

 **ALLIANCE**

Engineered to keep you ahead

Alliance has a wide range of highly specialised tyres, with each product being carefully engineered, keeping the latest technology in mind. It offers a wide range of sizes and patterns, available for various agricultural and industrial applications, so that you have the perfect, most efficient tyre for your needs. Alliance is the market leader in Row Crop and a pioneer in Flotation tyres. Alliance also boasts of a very comprehensive lineup of tyres for tractors, sprayers and spreaders. Alliance has OEM partnerships with many leading equipment manufacturers such as John Deere, Bobcat, JCB, New Holland, Caterpillar, and Liebherr, and we are proud to represent the brand in the Zimbabwean market.

 **TRIANGLE**<sup>®</sup>

Tyres for life

Triangle provides high quality, innovative tyre products at competitive prices. They service the commercial industry with an extensive line of dependable and fuel-efficient medium radial tyre products for the trucking industry, as well as a full range of premium quality radial and bias Off the Road (OTR) products for construction, mining and aggregate operations. For the consumer, they have a wide-ranging line up of passenger and light truck tyres. Triangle's reputation for quality is growing worldwide, leading to the development of significant OEM partnerships with manufacturers like Caterpillar, Volvo, Liebherr, Sandvik, Hitachi, Komatsu, Sany and Hyundai.

## **TERRAKING**

The King of tyres

Terraking is a well-established brand which produces quality products and great prices. Top-of-the-range manufacturing equipment monitored by a first-class technical team results in the production of more than 29 million Terraking truck and passenger tyres each year. Their products have obtained nearly all domestic and international certification, including CCC, ISO, SONCAP, SASO, GCC, DOT, ECE, and INMETRO. Terraking strives to create quality tyres, with a goal to become one of the world's best-known tyre manufacturers.

## **Zowin**

For special applications

Since the early nineties, Zowin has been concentrating on research and development for special use tyres such as industrial tyres, construction tyres, port-use tyres, and mining tyres. Their products cover more than 600 specifications, and have excellent adaptability with high scores on wear-resistance, puncture resistance, high-temperature resistance, and performance under heavy loads. Zowin's reputation is climbing higher and higher in the world market, with some products being supplied to several top machinery manufacturers as OEM.

## **NEXEN** **Tubes**

High-quality rubber products

Nexen produces tyre inner tubes, flaps, and retread envelopes of the highest quality. Its products are exported to over 140 countries around the world and it is the principal supplier for a number of key automobile manufacturers.

# SERVICES

As a leader in the industry, we aim to provide quality services and expert advice. Our services include :

## FITMENT & BALANCING

We offer fitment and balancing on Passenger, Truck and Mining tyres. Our professionally trained staff are on call to check, fit, change valves, and balance your tyres to ensure you are safe on the road.

Our new Commercial Fitment Centre offers stripping and fitting of all Agricultural, Mining, Industrial, Truck and Bus tyres. We are also proud to be the first company in Zimbabwe to offer balancing of Truck and Bus tyres between 17.5 and 24 inches.

## DELIVERY & TRANSPORT

TyreZim have a fleet of vehicles for delivery country-wide on a special arrangement basis only. Deliveries are reserved for account customers on a planned delivery system.

## SPECIALISED ACCOUNT MANAGEMENT

Delivery, special pricing, and specialised customer care can be arranged for regular TyreZim customers.

## **TRUCK AND BUS ALIGNMENT**

Our state-of-the-art facilities make it possible to align trucks and buses of all shapes and sizes, from 1.5 tonne run-arounds to 30 tonne rigs and interlinks. Typically, a lot of focus is allocated to correcting the alignment of horses, while trailers are neglected. We will align up to eight axles, ensuring that the entire vehicle is aligned, and operating at optimum efficiency.

## **PASSENGER ALIGNMENT**

Ensuring that your vehicle's alignment is correct doesn't just prevent it from pulling to the side or reduce the annoying vibration in your steering wheel; alignment is essential for improving the performance and lifespan of your tyres. Our goal is to supply our customers with the right tyres at the right prices, and the alignment that we offer will help to guarantee the best possible value for your money.

## **LASER ETCHING**

Laser etching technology for tyres is part of our comprehensive fleet management service. Our state-of-the-art equipment allows us to etch tyre identification numbers, logos, and other important data directly onto the tyre surface, providing a permanent and tamper-proof solution to fleet tracking and management. With our laser etching services, you can streamline your fleet management process and gain valuable insights into your vehicle performance.

## **TYRE REPAIRS**

Both Radial and Bias tyres of any kind can be repaired at our facility, and we warrantee our repairs! Minor repairs are classified as any injury that does not affect the steel belting or nylon structure of a tyre. A repair becomes "major" when an injury passes through the structure of the tyre. At our Commercial Fitment Centre we offer both. The repairs we offer are much more thorough than the application of a vulcanised surface patch. To start, rubber is removed from the injured area. Then, the injury is cleaned before being filled with new rubber. After this, a patch is placed on the inside of the tyre and the repair is cured until it is hardened to factory specifications. This process takes a minimum of 24 hours, depending on the severity of the injury. But, the result is a warrantied repair and value recovered from a tyre that otherwise would have been scrapped.

## WHAT OUR CLIENTS SAY

TyreZim has regularly supplied Machinery Exchange with tyres over the past five years. We have found them to be professional, efficient, easy to deal with. They have a large range of products, with good stock holdings and work to provide a high level of service.

From our experience we would recommend partnering with them.

**Brendan Reilly | MANAGING DIRECTOR - Machinery Exchange**

---

Over the last 5 years TyreZim has been one of our regular tyre suppliers. We have found them to be efficient, reliable and trustworthy and, as a result, we eagerly recommend them and the brands which they represent to anybody who is considering partnering with them.

**Nicky Bryce | DIRECTOR - Colbro Transport**

---

Kanu Equipment Zimbabwe has been purchasing tyres through TyreZim for over a year now and we are extremely happy with the service we are given. Their ability to hold stock and always have what we need, as well as their friendly and helpful team, has made them our lead supplier for tyres. I would highly recommend TyreZim to anyone needing a reputable company that is efficient and has a large portfolio to go with their fantastic service.

**Zara Rubenstein | OPERATIONS MANAGER - Kanu Equipment**

---

JR Goddard Contracting has been a client of TyreZim for over 5 years. The friendly and professional service which is provided alongside an outstanding product portfolio has made TyreZim an invaluable supplier.

**A. Van der Merwe | GROUP FINANCIAL MANAGER - JRG Contracting**
